

Samrat Kumar Dev Sharma

Dhaka, Bangladesh

✉ samrat.sdev@gmail.com | 🌐 samrat1699 | 🌐 samrat.com

OBJECTIVE

Join a research-focused graduate program to develop advanced ML methods in NLP, computer vision, causality, Bayesian statistics, and health informatics, with a special focus on medical image analysis.

EDUCATION

2020 - 2024 Bachelor of Science in Statistics at **Jagannath University** (CGPA: 3.64/4.0)
Research Project: Prevalence and Determinants of Malnutrition Among Women of Reproductive Age in Urban and Rural Bangladesh [Link](#)

RESEARCH INTEREST

Machine Learning, Bayesian Neural Networks, Natural Language Processing (NLP), Computer Vision, Causal Inference, Health Explainable AI (XAI), and policy-related applications.

WORK EXPERIENCE

Co-founder & Researcher	ARI, Dhaka	Jun 2025 – Present
	- Lead public health and bioinformatics projects. - Develop ML and deep learning models, including survival analysis. - Supervise team and coordinate AI workflows.	
Data Analyst Intern	Techscooper, India	Apr 2025 – Jun 2025
	- Preprocessed datasets and performed exploratory analysis. - Developed Power BI dashboards for visualization.	
Mentor - Data Science & ML	Online	Dec 2024 – Present
	- Guide students in ML projects and model evaluation. - Train on Python, R, Scikit-learn, and TensorFlow.	

PUBLICATIONS

Journal Papers

- S.K.D. Sharma. *A Comparative Study of Machine Learning Classifiers for Different Language Spam SMS Detection*. Advances in Artificial Intelligence Research, 4(2), 69–77, 2025. [Link](#)
- S.K.D. Sharma. *Oral Squamous Cell Detection Using Deep Learning*. Trans Med OA, 3(1), 01–10, 2025. [Link](#)

Conferences

- S.K.D. Sharma (Presenter) et al. *Breast Cancer Detection with Explainable AI: Grad-CAM and Bounding Box Interpretability*. 5th Bangladesh Breast Cancer Conference (BBCC), 2025, Dhaka. [Link](#)
- S.K.D. Sharma et al. *Evaluating Breast Cancer Treatment Outcomes Through Machine Learning Survival Analysis*. 9th Int'l Conference on Future Networks & Distributed Systems, 2025.
- S.K.D. Sharma et al. *ML Approach for Identifying Risk Factors for Low Birth Weight in Newborns in*

Submitted Manuscripts

1. S.K.D. Sharma et al. *A Mixed-Methods Socio-Technological Solution for Epidemic Preparedness: Leveraging AI in Dhaka's Dengue Response*. Societal Impacts (Under Review).
2. S.K.D. Sharma et al. *Predicting Acute Respiratory Infection Risk in Under-Five Children Using ML: Evidence from Bangladesh*. [Link](#)

PROJECTS

1. **Chronic Kidney Disease Stage Prediction (2025)**. [Code](#)
Developed ML classification models using clinical and lab data for early diagnosis and treatment planning.
2. **Breast Cancer Prognosis Using Survival Machine Learning Models (2024)**. [Code](#)
Applied DeepHit & Survival Random Forests to predict patient outcomes..
3. **Accident Risk Analysis and Hotspot Identification in the UK(2023)**.[Code](#)
Used PCA & unsupervised clustering on road accident data.

ACHIEVEMENTS

- Best Poster Presenter – BIE Environment Workshop, 2025
- Active Kaggle Contributor – Participated in ML competitions and shared notebooks

RELEVANT COURSEWORK

Statistical Inference, Bayesian Statistics and Decision Theory, Bioinformatics, Biostatistics, Research Methodology, Computational Statistics and Probability, Numerical Analysis, Mathematical Analysis, Regression Analysis, Multivariate Analysis.

SKILLS

- **Programming & ML:** Python, R, C++, TensorFlow, PyTorch, Keras, Scikit-learn, Pandas, Matplotlib, OpenCV.
- **Databases & Tools:** SQLite, MySQL, SPSS, Stata, Power BI, Git, GitHub, LaTeX.

EXTRACURRICULAR ACTIVITIES & VOLUNTEERING

- Member, Statistics Club.
- Co-Accountant, Birol Student Welfare Association.
- Participant, [Robi Datathon](#) & [Kaggle Competitions](#)
